

# Larkrise Primary School Progression of Skills Maths

## Fractions, Decimals and Percentages

<b>Fractions, Decimals and Percentages (EYFS)</b>	
<b>Fractions, Decimals and Percentages (Year 1)</b>	
<b>Fractions, Decimals and Percentages (Year 2)</b>	
<b>Fractions, Decimals and Percentages (Year 3)</b>	
<b>Fractions, Decimals and Percentages (Year 4)</b>	Can they solve simple measure and money problems involving fractions and decimals to two decimal places?
<b>Fractions, Decimals and Percentages (Year 5)</b>	Can they recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal? Can they solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$ , $\frac{1}{4}$ , $\frac{1}{5}$ , $\frac{2}{5}$ and $\frac{4}{5}$ and those fractions with a denominator of a multiple of 10 or 25?
<b>Fractions, Decimals and Percentages (Year 6)</b>	Can they associate a fraction with division and calculate decimal fraction equivalents (for example 0.375 for a simple fraction (for example, $\frac{3}{8}$ ))? Can they recall and use equivalences between simple fractions, decimals and percentages, including in different contexts?
